Dear Sir or Madam:

I wanted to take a moment to express my gratitude about Algan Azka Putra Wijaya. He has worked diligently to provide information on a previously undisclosed security vulnerability. The information provided was thorough, with links out to additional information on the vulnerability outlined.

The information provided allowed the university to patch the issue. He then tested for the vulnerability a second time confirming the updates resolved the security issue. I cannot tell you how nice it is to receive such thorough reports.

Algan Azka Putra Wijaya is a thorough tester. Any company would be lucky to employ him.

Sincerely,

Bryan Teague
